Summary

I am currently following my interest to become a Full-stack Web Developer. I am trained in MERN Stack and getting the required experience in it by developing projects. Previously, I worked as Application Development Analyst at Accenture Solutions Pvt. Ltd., trained and specialized in SAP ABAP Development on S/4 HANA, with total experience of 2.5+ years in Software Development on ERP Transformation.

Experience

Accenture Solutions Pvt. Ltd., Bangalore.

- **Application Development Associate** - 06/2019 - 05/2021.
- **Application Development Analyst** - 06/2021 – 05/2022.

Responsibilities:

- Design, Build and Configure applications to meet business process and application requirements.
- Worked on 10+ RICEF objects with full ownership and 15+ objects with shared ownership and carried out various stages of Software Development Lifecycle.
- Preparing Technical and Unit-Testing Documentation.

Projects-

- ERP Transformation - S/4 HANA Development (Oil and Energy)
- S/4 HANA Template Creation – S/4 HANA Development (Pharma)
- Next GEN ERP – S/4 HANA Development (Electronics)
- S/4 Implementation Project – S/4 HANA Development (Retail)
